SUMMARY

Results-driven Front-End Developer with 4+ years of experience building responsive web applications, interactive data visualizations, and scrollytelling websites using modern JavaScript frameworks. Skilled in developing high-performance user interfaces, integrating REST and GraphQL APIs, and collaborating with cross-functional teams to deliver scalable digital solutions. Strong understanding of UI/UX principles, performance optimization, and modern frontend development workflows. Passionate about creating engaging user experiences while maintaining clean, maintainable, and efficient code.

WORK EXPERIENCE

Position - Front-End Developer **Mar 2024 – Feb 2026**
Company Name - Thibi.co (Remote)

- Delivered multiple interactive scrollytelling websites and data visualization websites for international clients using SvelteKit, Next.js, HTML5, CSS3, and JavaScript.
- Improved website performance and loading speed through code refactoring, optimization techniques, and frontend best practices.
- Collaborated with UI/UX designers to transform complex visual concepts into responsive and user-friendly web experiences.
- Developed reusable and maintainable frontend components, reducing development time for future projects.
- Successfully managed multiple project deadlines while maintaining high code quality standards.
- Contributed to the successful delivery of climate and energy-related digital storytelling projects used by public audiences.

Position - Junior Front-End Developer **Mar 2022 – Sep 2023**
Company Name - Nexstack Pte Ltd (Remote)

- Developed and maintained CRM and sales portal applications using Next.js, Strapi CMS, and CSS-in-JS.
- Built responsive and cross-browser compatible user interfaces that improved accessibility and user experience.
- Integrated RESTful and GraphQL APIs to support dynamic content and business workflows.
- Participated in Agile development processes including sprint planning, code reviews, and team collaboration.
- Worked closely with designers, backend developers, and QA engineers to ensure successful project delivery.
- Assisted in implementing new features and enhancements that improved system functionality and user engagement.

CORE SKILLS

- Frontend:** HTML5, CSS3, JavaScript, TypeScript
- Frameworks & Libraries:** React.js, Next.js, Svelte, SvelteKit
- Styling:** Tailwind CSS, Bootstrap, CSS-in-JS (@emotion/react)
- APIs & Tools:** REST, GraphQL, Postman, GraphQL Playground
- Databases:** MySQL
- Version Control:** Git, GitHub, GitLab

PROJECTS

Carbon Capture Help Asia Reach Its Climate Goals

- Developed responsive scrollytelling experiences using SvelteKit.
- Implemented interactive storytelling components and optimized scroll-based animations.
- Enhanced user engagement through dynamic visual content and seamless user interactions.

How LNG Imports Affect Electricity Prices in the Philippines

- Built a data-driven scrollytelling platform using SvelteKit and D3.js.
- Developed interactive visualizations to communicate complex energy market insights.
- Optimized rendering performance for smooth user experience across devices.

Just Energy Transition Policy Toolkit

- Developed reusable UI components and responsive layouts.
- Collaborated with design and backend teams to integrate dynamic content and APIs.
- Improved maintainability through modular component architecture.

EDUCATION

- **Majoring in Computer Engineering and Information Technology**

Yangon Technology University - Dec 2015 - Mar 2019

- **Level 4 Diploma in Computing**

Twinkle University (NCC Education) - Feb 2022 - Oct 2023
